Subject Index of Volume 85

Aggregates
interaction of Fe(III)- and Zn(II)-tetra(4-sulfonatophenyl) porphyrins with ionic and nonionic surfactants: aggregation and binding, 263
Aluminum
aluminum speciation studies in biological fluids. Part 7. A quantitative investigation of aluminum(III)–malate complex equilibria and their potential implications for aluminum metabolism and toxicity, 143
Aluminum metabolism
aluminum speciation studies in biological fluids. Part 7. A quantitative investigation of aluminum(III)–malate complex equilibria and their potential implications for aluminum metabolism and toxicity, 143
Aluminum speciation
aluminum speciation studies in biological fluids. Part 7. A quantitative investigation of aluminum(III)–malate complex equilibria and their potential implications for aluminum metabolism and toxicity, 143
Aluminum toxicity
aluminum speciation studies in biological fluids. Part 7. A quantitative investigation of aluminum(III)–malate complex equilibria and their potential implications for aluminum metabolism and toxicity, 143
Aluminum(III)–malate complexes
aluminum speciation studies in biological fluids. Part 7. A quantitative investigation of aluminum(III)–malate complex equilibria and their potential implications for aluminum metabolism and toxicity, 143
9-Aminoacridine-4-carboxamides
cis-dichloroplatinum(II) complexes tethered to 9-aminoacridine-4-carboxamides: synthesis and action in resistant cell lines in vitro, 209
Anionic porphyrins
interaction of Fe(III)- and Zn(II)-tetra(4-sulfonatophenyl) porphyrins with ionic and nonionic surfactants: aggregation and binding, 263
Auricyanide
redox and ligand exchange reactions of potential gold(I) and gold(III)-cyanide metabolites under biomimetic conditions, 67
Aurocyanide
redox and ligand exchange reactions of potential gold(I) and gold(III)-cyanide metabolites under biomimetic conditions, 67
Biological fluids
aluminum speciation studies in biological fluids. Part 7. A quantitative investigation of aluminum(III)–malate complex equilibria and their potential implications for aluminum metabolism and toxicity, 143
Biological redox reactions
redox and ligand exchange reactions of potential gold(I) and gold(III)-cyanide metabolites under biomimetic conditions, 67
Bis(maltolato)oxovandium(IV)
effect of vanadium(IV) compounds in the treatment of diabetes: in vivo and in vitro studies with vanadyl sulfate and bis(maltolato)oxovandium(IV), 33
Bovine serum albumin
peptides mimicking the N-terminal Cu(II)-binding site of bovine serum albumin: synthesis, characterization and coordination with Cu(II) ions, 23
UV/visible spectrophotometric studies of the interactions of thiomolybdates, copper(II) and other ligands, 53
BMOV
effect of vanadium(IV) compounds in the treatment of diabetes: in vivo and in vitro studies with vanadyl sulfate and bis(maltolato)oxovandium(IV), 33
BNCT
a new approach for the synthesis of isonitrile carborane derivatives. Ligands for metal based boron neutron capture therapy (BNCT) and boron neutron capture synovectomy (BNCS) agents, 43

Cadmium complex
interactions of d^{10} metal ions with hippuric acid and cytosine. X-ray structure of the first cadmium (II)–amino acid derivative–nucleobase ternary compound, 173
Calf thymus DNA
interaction of metallopyrazoliumylporphyrins with calf thymus DNA, 219
Carboranes
a new approach for the synthesis of isonitrile carborane derivatives. Ligands for metal based boron neutron capture therapy (BNCT) and boron neutron capture synovectomy (BNCS) agents, 43
Carboxylates
sterically hindered cisplatin derivatives with multiple carboxylate auxiliary arms: synthesis and reactions with guanosine-5′-monophosphate and plasmid DNA, 229
Carboxylato-
platinum carboxylato-pendant-arm macrocycles: structure, redox properties and anti-cancer potential, 1
Catechin
the kinetics and mechanisms of the reaction of iron(III) with gallic acid, gallic acid methyl ester and catechin, 131
Catecholates
catecholamine complexes of ruthenium–edta and their redox chemistry, 155
Cationic pyrazoliumylporphyrin
interaction of metallopyrazoliumylporphyrins with calf thymus DNA, 219
CD spectroscopy
CD spectroscopic study on the speciation and solution structure of copper(II) complexes of some tripeptides in combination with potentiometric and spectrophotometric results, 89
Cell death
cell death by reactive oxygen species generated from water-soluble cationic metalloporphyrins as superoxide dismutase mimics, 201
Chronic iron overload
silybin, a new iron-chelating agent, 123
Circular dichroism
interactions of two cytotoxic organotin(IV) compounds with calf thymus DNA, 297

Elsevier Science B.V.
PII: S0162-0134(01)00235-5

Cis effects
redox and ligand exchange reactions of potential gold(I) and gold(III)-cyanide metabolites under biomimetic conditions, 67
Cis-dichloroplatinum(II)
cis-dichloroplatinum(II) complexes tethered to 9-aminoacridine-4-carboxamides: synthesis and action in resistant cell lines in vitro, 209
Cisplatin
sterically hindered cisplatin derivatives with multiple carboxylate auxiliary arms: synthesis and reactions with guanosine-5′-monophosphate and plasmid DNA, 229
Cisplatin analogues
study of the interaction of *cis*-dichloro-(1,2 diethyl-3-aminopyrrolidine)Pt(II) complex with poly(I), poly(C) and poly(I)·poly(C), 279
Clostridium pasteurianum
oxygen disruption of the 2[4Fe–4S] clusters in *Clostridium pasteurianum* ferredoxin shown by ^{1}H–NMR, 117
CO binding
volume and enthalpy profiles of CO binding to Fe(II) tetrakis-(4-sulfonatophenyl)porphyrin, 107
Co(II)–serum albumin
the subsequent effect of interaction between Co^{2+} and human serum albumin or bovine serum albumin, 167
Cobalt(III) complexes
DNA-binding and photocleavage studies of cobalt(III) mixed-polypyridyl complexes containing 2-(2-chloro-5-nitrophenyl)imidazo [4,5-*f*][1,10]phenanthroline, 291
Conformation transition
the subsequent effect of interaction between Co^{2+} and human serum albumin or bovine serum albumin, 167
Cooley's anemia
silybin, a new iron-chelating agent, 123
Copper
hydrogen bonding in the crystal structure of bis{3-[(thiomethyl)methyl]pyrazole}copper(II) perchlorate, 61
Copper(II)
UV/visible spectrophotometric studies of the interactions of thiomolybdates, copper(II) and other ligands, 53
Copper(II) complexes
peptides mimicking the N-terminal Cu(II)-binding site of bovine serum albumin: synthesis, characterization and coordination with Cu(II) ions, 23
CD spectroscopic study on the speciation and solution structure of copper(II) complexes of some tripeptides in combination with potentiometric and spectrophotometric results, 89
coordination mode and reactivity of copper(II) complexes with kasugamycin, 99
copper(II) and oxovanadium(IV) complexes of D-3-phosphoglyceric acid, 245
Crystal structure
a new approach for the synthesis of isonitrile carborane derivatives. Ligands for metal based boron neutron capture therapy (BNCT) and boron neutron capture synovectomy (BNCS) agents, 43
Cu,Zn-superoxide dismutase enzyme
interaction of Cu^{2+} with His–Val–His and of Zn^{2+} with His–Val–Gly–Asp, two peptides surrounding metal ions in Cu,Zn-superoxide dismutase enzyme, 253
Cu^{2+}
interaction of Cu^{2+} with His–Val–His and of Zn^{2+} with His–Val–Gly–Asp, two peptides surrounding metal ions in Cu,Zn-superoxide dismutase enzyme, 253
Cytosine
interactions of d^{10} metal ions with hippuric acid and cytosine. X-ray structure of the first cadmium (II)–amino acid derivative–nucleobase ternary compound, 173
Cytotoxicity
cis-dichloroplatinum(II) complexes tethered to 9-aminoacridine-4-carboxamides: synthesis and action in resistant cell lines in vitro, 209

2′-Deoxyguanosine oxidation
coordination mode and reactivity of copper(II) complexes with kasugamycin, 99
Diabetes
effect of vanadium(IV) compounds in the treatment of diabetes: in vivo and in vitro studies with vanadyl sulfate and bis(maltolato)oxovandium(IV), 33
Dinuclear complexes
copper(II) and oxovanadium(IV) complexes of D-3-phosphoglyceric acid, 245
Disproportionation
platinum carboxylato-pendant-arm macrocycles: structure, redox properties and anti-cancer potential, 1
DNA
sterically hindered cisplatin derivatives with multiple carboxylate auxiliary arms: synthesis and reactions with guanosine-5′-monophosphate and plasmid DNA, 229
interactions of two cytotoxic organotin(IV) compounds with calf thymus DNA, 297
DNA-binding
DNA-binding and photocleavage studies of cobalt(III) mixed-polypyridyl complexes containing 2-(2-chloro-5-nitrophenyl)imidazo [4,5-*f*][1,10]phenanthroline, 291
DNA damage
cell death by reactive oxygen species generated from water-soluble cationic metalloporphyrins as superoxide dismutase mimics, 201
DNA melting
interactions of two cytotoxic organotin(IV) compounds with calf thymus DNA, 297

Electrochemistry
catecholamine complexes of ruthenium–edta and their redox chemistry, 155
Electrospray mass spectrometry
metal complexes of the mycotoxins sporidesmin A and gliotoxin, investigated by electrospray ionisation mass spectrometry, 187
Enzyme superoxide dismutase
interaction of Cu^{2+} with His–Val–His and of Zn^{2+} with His–Val–Gly–Asp, two peptides surrounding metal ions in Cu,Zn-superoxide dismutase enzyme, 253
EPR
effect of vanadium(IV) compounds in the treatment of diabetes: in vivo and in vitro studies with vanadyl sulfate and bis(maltolato)oxovandium(IV), 33

2[4Fe–4S]
oxygen disruption of the 2[4Fe–4S] clusters in *Clostridium pasteurianum* ferredoxin shown by ^{1}H–NMR, 117
Ferredoxin
oxygen disruption of the 2[4Fe–4S] clusters in *Clostridium pasteurianum* ferredoxin shown by ^{1}H–NMR, 117

Galactose oxidase
interconversion of Cu^{I} and Cu^{II} forms of galactose oxidase: comparison of reduction potentials, 237
Gallic acid
the kinetics and mechanisms of the reaction of iron(III) with gallic acid, gallic acid methyl ester and catechin, 131
Gallic acid methyl ester
the kinetics and mechanisms of the reaction of iron(III) with gallic acid, gallic acid methyl ester and catechin, 131

Gel electrophoresis
interactions of two cytotoxic organotin(IV) compounds with calf thymus DNA, 297
Gliotoxin
metal complexes of the mycotoxins sporidesmin A and gliotoxin, investigated by electrospray ionisation mass spectrometry, 187
Glucose tolerance
amelioration of insulin resistance in diabetic *ob/ob* mice by a new type of orally active insulin–mimetic vanadyl complex: Bis-(1-oxy-2-pyridinethiolato)oxovanadium(IV) with $VO(S_2O_2)$ coordination mode, 179
Glutathione peroxidase (GPx)
human catalytic antibodies with glutathione peroxidase activity, 301
GMP
sterically hindered cisplatin derivatives with multiple carboxylate auxiliary arms: synthesis and reactions with guanosine-5′-monophosphate and plasmid DNA, 229
Gold
redox and ligand exchange reactions of potential gold(I) and gold(III)-cyanide metabolites under biomimetic conditions, 67

^{1}H NMR
study of the interaction of *cis*-dichloro-(1,2 diethyl-3-aminopyrrolidine)Pt(II) complex with poly(I), poly(C) and poly(I)·poly(C), 279
Heme
volume and enthalpy profiles of CO binding to Fe(II) tetrakis-(4-sulfonatophenyl)porphyrin, 107
Hippuric acid
interactions of d^{10} metal ions with hippuric acid and cytosine. X-ray structure of the first cadmium (II)–amino acid derivative–nucleobase ternary compound, 173
His–Val–Gly–Asp
interaction of Cu^{2+} with His–Val–His and of Zn^{2+} with His–Val–Gly–Asp, two peptides surrounding metal ions in Cu,Zn-superoxide dismutase enzyme, 253
His–Val–His
interaction of Cu^{2+} with His–Val–His and of Zn^{2+} with His–Val–Gly–Asp, two peptides surrounding metal ions in Cu,Zn-superoxide dismutase enzyme, 253
Histidine
novel Tc and Re complexes with the amino acids histidine and methionine, 77
peptides mimicking the N-terminal Cu(II)-binding site of bovine serum albumin: synthesis, characterization and coordination with Cu(II) ions, 23
Human catalytic antibody
human catalytic antibodies with glutathione peroxidase activity, 301
Hydrogen bonding
hydrogen bonding in the crystal structure of bis{3-[(thiomethyl)methyl]pyrazole}copper(II) perchlorate, 61
Hypochlorite
redox and ligand exchange reactions of potential gold(I) and gold(III)-cyanide metabolites under biomimetic conditions, 67
Hypochromic effect
the subsequent effect of interaction between Co^{2+} and human serum albumin or bovine serum albumin, 167
Hypoxic
towards new transition metal-based hypoxic selective agents for therapy and imaging, 15
Hysteretic effect
the subsequent effect of interaction between Co^{2+} and human serum albumin or bovine serum albumin, 167

Imaging
towards new transition metal-based hypoxic selective agents for therapy and imaging, 15
Iron chelator
silybin, a new iron-chelating agent, 123
Iron(III)
the kinetics and mechanisms of the reaction of iron(III) with gallic acid, gallic acid methyl ester and catechin, 131
Irreversible oxidation
oxygen disruption of the 2[4Fe–4S] clusters in *Clostridium pasteurianum* ferredoxin shown by ^{1}H–NMR, 117
IRS-1 phosphorylation
amelioration of insulin resistance in diabetic *ob/ob* mice by a new type of orally active insulin–mimetic vanadyl complex: Bis-(1-oxy-2-pyridinethiolato)oxovanadium(IV) with $VO(S_2O_2)$ coordination mode, 179
Isonitriles
a new approach for the synthesis of isonitrile carborane derivatives. Ligands for metal based boron neutron capture therapy (BNCT) and boron neutron capture synovectomy (BNCS) agents, 43

Kasugamycin
coordination mode and reactivity of copper(II) complexes with kasugamycin, 99

Ligands
the kinetics and mechanisms of the reaction of iron(III) with gallic acid, gallic acid methyl ester and catechin, 131

Matrix rank analysis
CD spectroscopic study on the speciation and solution structure of copper(II) complexes of some tripeptides in combination with potentiometric and spectrophotometric results, 89
Metal complexes
metal complexes of the mycotoxins sporidesmin A and gliotoxin, investigated by electrospray ionisation mass spectrometry, 187
Metalloenzymes
hydrogen bonding in the crystal structure of bis{3-[(thiomethyl)methyl]pyrazole}copper(II) perchlorate, 61
Metalloporphyrins
cell death by reactive oxygen species generated from water-soluble cationic metalloporphyrins as superoxide dismutase mimics, 201
interaction of metallopyrazoliumylporphyrins with calf thymus DNA, 219
interaction of Fe(III)- and Zn(II)-tetra(4-sulfonatophenyl) porphyrins with ionic and nonionic surfactants: aggregation and binding, 263
Metal
towards new transition metal-based hypoxic selective agents for therapy and imaging, 15
Methionine
novel Tc and Re complexes with the amino acids histidine and methionine, 77
Multivariate curve resolution
study of the interaction of *cis*-dichloro-(1,2 diethyl-3-aminopyrrolidine)Pt(II) complex with poly(I), poly(C) and poly(I)·poly(C), 279
Mycotoxin
metal complexes of the mycotoxins sporidesmin A and gliotoxin, investigated by electrospray ionisation mass spectrometry, 187

Neurotransmitters
catecholamine complexes of ruthenium–edta and their redox chemistry, 155
Noninnocent ligands
catecholamine complexes of ruthenium–edta and their redox chemistry, 155
NMR spectroscopy
oxygen disruption of the 2[4Fe–4S] clusters in *Clostridium pasteurianum* ferredoxin shown by ^{1}H–NMR, 117

ob/ob mice
amelioration of insulin resistance in diabetic *ob/ob* mice by a new type of orally active insulin–mimetic vanadyl complex: Bis-(1-oxy-2-pyridinethiolato)oxovanadium(IV) with $VO(S_2O_2)$ coordination mode, 179
Organotin compounds
interactions of two cytotoxic organotin(IV) compounds with calf thymus DNA, 297

Paramagnetic
oxygen disruption of the 2[4Fe–4S] clusters in *Clostridium pasteurianum* ferredoxin shown by ^{1}H–NMR, 117
Pendant-arm
platinum carboxylato-pendant-arm macrocycles: structure, redox properties and anti-cancer potential, 1
Peptide nucleic acids
impact of Cu(II) and Ni(II) on a structure of chiral peptide nucleic acids having four, six and eight thymines in a peptide side chain, 79
Peptide synthesis
peptides mimicking the N-terminal Cu(II)-binding site of bovine serum albumin: synthesis, characterization and coordination with Cu(II) ions, 23
D-3-Phosphoglyceric acid
copper(II) and oxovanadium(IV) complexes of D-3-phosphoglyceric acid, 245
Photocleavage
DNA-binding and photocleavage studies of cobalt(III) mixed-polypyridyl complexes containing 2-(2-chloro-5-nitrophenyl)imidazo [4,5-*f*][1,10]phenanthroline, 291
Photothermal
volume and enthalpy profiles of CO binding to Fe(II) tetrakis-(4-sulfonatophenyl)porphyrin, 107
Platinum
platinum carboxylato-pendant-arm macrocycles: structure, redox properties and anti-cancer potential, 1
Polypyridyl ligand
DNA-binding and photocleavage studies of cobalt(III) mixed-polypyridyl complexes containing 2-(2-chloro-5-nitrophenyl)imidazo [4,5-*f*][1,10]phenanthroline, 291
Porphyrin–DNA interaction
interaction of metallopyrazoliumylporphyrins with calf thymus DNA, 219
Porphyrin–surfactant interactions
interaction of Fe(III)- and Zn(II)-tetra(4-sulfonatophenyl) porphyrins with ionic and nonionic surfactants: aggregation and binding, 263
Potentiometry
coordination mode and reactivity of copper(II) complexes with kasugamycin, 99
Pt complexes
study of the interaction of *cis*-dichloro-(1,2 diethyl-3-aminopyrrolidine)Pt(II) complex with poly(I), poly(C) and poly(I)·poly(C), 279
^{195}Pt NMR
sterically hindered cisplatin derivatives with multiple carboxylate auxiliary arms: synthesis and reactions with guanosine-5′-monophosphate and plasmid DNA, 229
Pyrazole
hydrogen bonding in the crystal structure of bis{3-[(thiomethyl)methyl]pyrazole}copper(II) perchlorate, 61

Reactive oxygen species
cell death by reactive oxygen species generated from water-soluble cationic metalloporphyrins as superoxide dismutase mimics, 201
Reduction potentials
interconversion of Cu^I and Cu^{II} forms of galactose oxidase: comparison of reduction potentials, 237
Resistance
cis-dichloroplatinum(II) complexes tethered to 9-aminoacridine-4-carboxamides: synthesis and action in resistant cell lines in vitro, 209
Ruthenium–edta complexes
catecholamine complexes of ruthenium–edta and their redox chemistry, 155

Selective
towards new transition metal-based hypoxic selective agents for therapy and imaging, 15
Self-exchange rates
platinum carboxylato-pendant-arm macrocycles: structure, redox properties and anti-cancer potential, 1
Side chains
impact of Cu(II) and Ni(II) on a structure of chiral peptide nucleic acids having four, six and eight thymines in a peptide side chain, 79
Silybin
silybin, a new iron-chelating agent, 123
SOD activity
cell death by reactive oxygen species generated from water-soluble cationic metalloporphyrins as superoxide dismutase mimics, 201
Speciation
study of the interaction of *cis*-dichloro-(1,2 diethyl-3-aminopyrrolidine)Pt(II) complex with poly(I), poly(C) and poly(I)·poly(C), 279
Spectroscopy
coordination mode and reactivity of copper(II) complexes with kasugamycin, 99
Sporidesmin
metal complexes of the mycotoxins sporidesmin A and gliotoxin, investigated by electrospray ionisation mass spectrometry, 187
Superoxide radicals
coordination mode and reactivity of copper(II) complexes with kasugamycin, 99
Surfactants
interaction of Fe(III)- and Zn(II)-tetra(4-sulfonatophenyl) porphyrins with ionic and nonionic surfactants: aggregation and binding, 263
Synthesis
cis-dichloroplatinum(II) complexes tethered to 9-aminoacridine-4-carboxamides: synthesis and action in resistant cell lines in vitro, 209
DNA-binding and photocleavage studies of cobalt(III) mixed-polypyridyl complexes containing 2-(2-chloro-5-nitrophenyl)imidazo [4,5-*f*][1,10]phenanthroline, 291

Tc and Re complexes
novel Tc and Re complexes with the amino acids histidine and methionine, 77
Ternary complexes
interactions of d^{10} metal ions with hippuric acid and cytosine. X-ray structure of the first cadmium (II)–amino acid derivative–nucleobase ternary compound, 173
Tetraazamacrocycles
platinum carboxylato-pendant-arm macrocycles: structure, redox properties and anti-cancer potential, 1
Therapy
towards new transition metal-based hypoxic selective agents for therapy and imaging, 15
Thermodynamic parameters
interaction of metallopyrazoliumylporphyrins with calf thymus DNA, 219
Thiomolybdates
UV/visible spectrophotometric studies of the interactions of thiomolybdates, copper(II) and other ligands, 53

Thymine
impact of Cu(II) and Ni(II) on a structure of chiral peptide nucleic acids having four, six and eight thymines in a peptide side chain, 79
TNF-α
amelioration of insulin resistance in diabetic *ob/ob* mice by a new type of orally active insulin–mimetic vanadyl complex: Bis-(1-oxy-2-pyridinethiolato)oxovanadium(IV) with $VO(S_2O_2)$ coordination mode, 179
Trans effects
redox and ligand exchange reactions of potential gold(I) and gold(III)-cyanide metabolites under biomimetic conditions, 67
Tripeptides
CD spectroscopic study on the speciation and solution structure of copper(II) complexes of some tripeptides in combination with potentiometric and spectrophotometric results, 89
Vanadyl complex
amelioration of insulin resistance in diabetic *ob/ob* mice by a new type of orally active insulin–mimetic vanadyl complex: Bis-(1-oxy-2-pyridinethiolato)oxovanadium(IV) with $VO(S_2O_2)$ coordination mode, 179
Vanadyl sulfate
effect of vanadium(IV) compounds in the treatment of diabetes: in vivo and in vitro studies with vanadyl sulfate and bis(maltolato)oxovandium(IV), 33
VO(IV) complexes
copper(II) and oxovanadium(IV) complexes of D-3-phosphoglyceric acid, 245
Volume change
volume and enthalpy profiles of CO binding to Fe(II) tetrakis-(4-sulfonatophenyl)porphyrin, 107
